

SAUNAS

Upgrade Your Jacuzzi® Infrared Sauna Experience

Jacuzzi® infrared saunas are designed with your optimum health in mind. So much so, that we're offering special add-ons that can make your infrared sauna experience even more enjoyable. You can opt for some or all the following.

Full Spectrum Heater

Add full spectrum infrared heat to your Clearlight™ Premier or enhance your Clearlight Sanctuary with a 300 watt full spectrum heater. This heater, measuring 24" x 7", is mounted on the interior of the door. The heater has a textured mesh heater guard and plugs conveniently into a receptacle already built into your sauna.

Vibration Resonance Therapy (VRT)

All Clearlight™ models can add Vibrational Resonance Therapy (VRT). VRT combines the benefits of sound and vibration, relaxing your body and mind. The VRT modules attach to the bottom of the sauna bench and turn the bench into a "speaker". VRT operates via pre-installed Bluetooth or an AUX connection.

Medical Grade Chromotherapy

While standard in all Clearlight Sanctuary™ models, you can upgrade any Clearlight Premier™ to our Medical Grade Chromotherapy with 96 LED Lights, remote controlled dimming capability and finger toggle. With high intensity output, comes a higher therapeutic benefit. You can set an individual color or select "auto" mode to cycle between colors every 25 seconds.

Ergonomic Backrest

All Clearlight® models can accommodate portable backrest for added comfort and support during your sauna session. Designed by our founder Dr. Raleigh Duncan, a Chiropractic Physician, this provides an additional level of comfort to an already amazing experience.

Jacuzzi® UVC/UVA Disinfectant Wand

The portable and easy to use Jacuzzi® UVC/UVA Disinfectant Wand comes with powerful UVC and UVA LEDs and eliminates up to 99.9% harmful bacteria and viruses. 100% Ozone and Chemical Free, it also comes with safety goggles, gloves and a handy carrying case for added convenience.

Bench Cushion

Add an extra layer of comfort to your sauna session with our custom made Bench Cushions. This 2" thick, waterproof and mold resistant cushion is custom made to fit the bench of your sauna. Just wipe down the cushion with a damp cloth in between sessions.

Lounge Chair

Take your SanctuaryY or Retreat model sauna to a whole new level of luxury and comfort with this custom designed ergonomic lounge chair and foot rest! It comes complete with a movable cushion and breathable mesh liner.

Klafs SaltProX

Installing a Klafs Microsalt SaltProX turns any infrared sauna into a healing salt cave. The conditions of heat and humidity in our infrared saunas are perfect for salt therapy. The salt aerosol is distributed evenly for optimal respiratory comfort and healing.

LED Light Therapy

We have combined powerful red light and near infrared wavelengths to offer you the most advanced healing light therapy. It can be used inside your sauna, or detached to use as a stand-alone device.
